How Any Woman Can Remove Hairy Growths

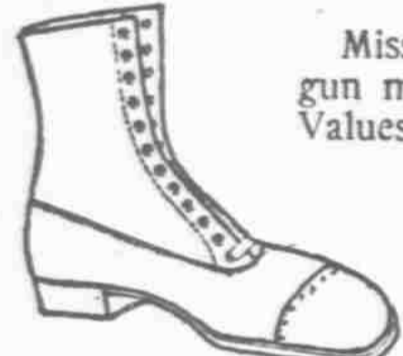

(Beauty Culture)

It is no longer necessary for a woman to visit a beauty specialist to have superfluous hairs removed, for, with the aid of a plain depilatory paste, she can, in the privacy of her own home, remove even a stubborn growth in a very few minutes. The paste is made by mixing some water with a little powdered depilatory. This is applied to the hairs and after 2 or 3 minutes removed and the skin washed. When it will be left clear and hairless. Be sure you buy real depilatory.

The Vice President and Mrs. Marshall will be the honor guests at the dinner which the Acting Secretary of State and Mrs. Frank L. Polk will give tonight. Mr. and Mrs. Polk will entertain at dinner again on Tuesday evening, their guests being asked to meet the Minister of Serbia and Mme. Grouitch.

Marshalls Going West.
The Vice President and Mrs. Marshall expect to go West for an extended trip, leaving Washington on March 5.

John Barrett, Director General of the Pan-American Union, was host at a brilliant dinner, followed by the Vice President and Mrs. Marshall and the Ambassador of Chile and Mme. de Mathieu as the honor guests. Be Careful in Using Soap on Your Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.
